

Texturizing Volume Spray

Ever dreamed of having perfect volume? INLOV is a dream come true. Vegan formula for styling and treatment in a single product. In addition to volume, it provides elasticity, softness and wet combability.

ACTIVE INGREDIENTS

Enriched with:

Volumizing molecule that increases manageability and elasticity, generating volume with extra care for the hair.

Chestnut Extract: maintains hair hydration. Acts as a thermal protector and repairs damaged hair.

Provitamin B5: penetrates the hair and contributes to thickening and strengthening the hair fiber. Improves hair hydration.

BENEFITS

Texturizing volume spray that provides hair with **multiple benefits: Volume, softness, shine and increased density**. Thanks to its formulation, it forms a hexagonal structure that generates extra volume when the hair dries. The mixture of its active ingredients with natural ingredients repairs the hair, restoring the moisture and shine it needs. Revitalizes and provides density.

Respects the hair while maintaining its natural shine. Helps to avoid frizz and to maintain firm waves and perfect hairstyles. Non-sticky, fast-drying formula with ultra-light diffusion. It leaves no residue. Creates an anti-humidity film and provides long-lasting yet natural hold. No ozone-depleting gases. 100% Gluten Free product, suitable for use by those intolerant or allergic to gluten.

Its formulation does not contain sulfates, silicones or allergens derived from perfume.

Environmentally friendly formulation without ingredients of animal origin.

Sustainable packaging: PE GREEN bio-based plastic container made from 100% recyclable sugar cane. The allergen-free fragrance is characterized by fresh notes with a fruity heart.

INSTRUCTIONS FOR USE

Apply to damp hair, especially at the roots, and proceed to dry. For an extra volume effect, blow-dry the hair.
